ACRYLIC DYE

Bindery pigment to dye the Acrylic Paints

Page 1 de 2

Acrylic dye DE LA PEÑA is presented in the form of high concentration aqueous paste, obtained by the total dispersion of pure pigments based liquid. Due to their excellent qualities, they are irreplaceable for dye all kinds of plastic paints and in general all kinds of water paints. Great performance that ensures immediate dispersion using simple color mixing. The careful selection of the pigments used in its composition, makes that the colors are permanent and very stable having also great resistance to light (*) and alkalis. All colors can be mixed together, to achieve shades intermediate that you wish. It must not use more than 5% of pigment on painting. Fastness to light and weathering of colors is conditioned by the quality of the paint base and the percentage of dye used. In exterior paints, the colors of light are black, ochre, suede, green and blue.

(*) Yellow and red dye are only recommended indoor.
